

DISCUSSION WEBINAR

PROSPECTS FOR SUBSIDY-FREE RES AND PPAS IN A LOW-PRICE POWER MARKET. AN INTERNATIONAL COMPARISON.

THURSDAY MAY 28TH
16.00 TO 17.30

ITALIAN TIME GMT+2

PROGRAM

The webinar addresses possible development of grid parity and PPA investment in key global markets for renewable energy: Europe, North America and Latin America. The aim is to draw learnings on market development in recent months, and to provide hints and ideas on future developments after the coronavirus crisis.

The webinar builds on the OIR 2020 Report which analyses RES development strategies by major European energy groups and investment funds.
